Summary

Junior Android Developer building Kotlin and Jetpack Compose features at HeroApps since February 2026. Contributed to two published Android guides and an internally tested check-in app through UI, authentication, purchases, API integrations and release work. Open to Philippine onsite/remote roles and international remote roles.

Skills

Android: Kotlin, Java, Android SDK, Jetpack Compose, XML layouts, Material Design 3
Architecture and state: MVVM, Clean Architecture, Coroutines, Flow, StateFlow, Hilt, Koin
Data: REST APIs, Retrofit, OkHttp, Room, SQLite, Cloud Firestore
Services and delivery: Firebase Auth, Firebase Cloud Messaging (FCM), Crashlytics, Remote Config, App Distribution, Git, Google Play Console, Google Play Billing
Additional mobile experience: Kotlin Multiplatform, Compose Multiplatform, GPS/geofencing, QR scanning

Experience

HeroApps Software Development Services
Junior Android Developer | February 12, 2026 - Present

- **LoL Game Guide - published Android app:** Implemented champion browsing, filters, details and a shared search bar for champion, item and summoner-spell screens. Implemented donation/remove-ads purchases and advertising; handled Play Console setup and internal, closed and open testing through production. Built game-data and statistics scripts.
- **MLBB Game Guide - published Android app:** Implemented Firebase Authentication login/sign-up, contributed Compose UI to the redesign from Figma designs, and built a working JavaScript patch-note scraper. Worked within the shared MLBB/LoL multi-module Gradle project using Hilt.
- **EarnPH - internal testing:** Implemented or substantially modified phone OTP login, GPS/polygon geofencing, QR check-in using KScan, REST API integration, FCM notifications and Crashlytics. Collaborated with backend developers on endpoint requirements while continuing to learn KMP/Compose Multiplatform.

Projects

DevDeck - personal portfolio: Public Web and Android releases with shared Kotlin/Compose UI, Koin, StateFlow, responsive layouts and light/dark themes. Source: github.com/johnrusselguiwan-dev/DevDeck.

CN-Karigusan - academic Android project: Java and Android SDK tourism guide for swimming destinations in Camarines Norte, including destination data and pricing.

Education

Camarines Norte State College | AY 2022 - 2026
Bachelor of Science in Information Systems | GWA: 1.5471 | College Scholar
Academic Distinction; Best in OJT; Best in Capstone Project (Museo Bulawan MIS)
